

**OFM Project Information for Award # S09-DY-53-0001****Project ID:** Administration**Award Amount:** \$250,111.00**Name:** Homelessness Prevention**Status:** Completed 50%  
or more

**Description:** Sub grantees have exceeded the projected number of households served by 60 percent assisting on average 250 households a month. Of the total 5,055 households projected to be served sixty-seven percent (67%) are assisted with Prevention services and thirty-three percent (33%) with Rapid Re-Housing. Sub grantees state requests for emergency rental assistance due to an eviction notice are higher than previous years.

Sub grantees are about five percent (5%) behind in meeting their own spending projections. Last quarter we did not reduce any grant budgets due to under spending. Because we are five percent (5%) behind, we will review performance in mid-January and determine if we need to shift funds to sub grantees closer to spending out. Several grantees have indicated they will spend their entire grant a year earlier than expected and will not be budgeting funds to provide services in year three.

We continue to provide a high level of technical assistance on client data entry into the Homeless Management Information System (HMIS). This quarter staff have spent considerable time reviewing and analyzing client data and fiscal information for completion for the Annual Progress Report (APR). This includes analyzing and guiding sub grantees on how to correct "don't know," "refused," and "missing" values to ensure accuracy, analyzing automated system de-duplication processes to ensure compliance with federal standards, monitoring and guiding sub grantees on how to correct required demographic and other client information (i.e., family type, housing status, assistance received) to ensure accuracy, and checking system reporting capabilities and compliance against federal HPRP APR programming specifications.

Several delays in the dissemination of programming specifications to the HMIS software vendors from the Department of Housing and Urban Development (HUD) have required our staff to proceed with data quality analysis in the absence of any tools tied directly
